SOUNDLESS

BY CADEINOR

ACOUSTIC SOLUTIONS

ABOUT US:

A **SoundLess®** surge das novas dinâmicas dos espaços de trabalho, e da importância que acústica detém na qualidade destas áreas. Nascida no universo **Cadeinor®** integra toda a sua experiência e Know-How, na sua génese assentam três grandes pilares: a **Acústica**, a **Sustentabilidade** e o **Design**. Traduzindo-se em produtos com alta performance acústica sendo intrínseco ao seu desenvolvimento o respeito pelo ambiente. Agregando-se um design contemporâneo com especial atenção ao detalhe, não descurando a funcionalidade e praticidade dos seus modelos.

SoundLess® surge de la nueva dinámica de los espacios de trabajo, y de la importancia que tiene la acústica en la calidad de estos espacios. Nacido en el universo **Cadeinor®**, integra toda su experiencia y Know-How, su génesis se basa en tres pilares fundamentales: **Acústica**, **Sostenibilidad** y **Diseño**. Traduciéndose en productos con altas prestaciones acústicas, siendo intrínseco a su desarrollo el respeto por el medio ambiente. Añadiendo un diseño contemporáneo con especial atención al detalle, sin descuidar la funcionalidad y practicidad de sus modelos.

SoundLess® arises from the new dynamics of workspaces, and the importance that acoustics has in the quality of these areas. Born in the **Cadeinor®** universe, it integrates all its experience and Know-How, in its genesis are based on three main pillars: **Acoustics**, **Sustainability** and **Design**. Translating into products with high acoustic performance, being intrinsic to its development respect for the environment. Adding a contemporary design with special attention to detail, not neglecting the functionality and practicality of its models.

SoundLess® naît de la nouvelle dynamique des espaces de travail, et de l'importance que l'acoustique a dans la qualité de ces espaces. Née dans l'univers **Cadeinor®**, elle intègre toute son expérience et son savoir-faire, sa genèse repose sur trois piliers principaux : **Acoustique**, **Durabilité** et **Design**. Se traduisant par des produits à hautes performances acoustiques, intrinsèques à leur développement, le respect de l'environnement. Ajoutant un design contemporain avec une attention particulière aux détails, sans négliger la fonctionnalité et la praticité de ses modèles.

“The dynamics of spaces goes far beyond what is seen, we must be attentive to continue to offer inspiring places.”

Manuel Marinho, CEO & Founder Cadeinor

“Current design has to be more than creating trends, it has to be the example. Paying close attention to our daily lives, we can notice that design is everywhere, if the designer’s concern goes beyond functionality and aesthetics, I believe that the discipline of design can really change the world.”

Roberto Alves - Senior Product Designer

PROCESSO DE PRODUÇÃO DO PET FELTRO

PET FELT PRODUCTION PROCESS / PROCESO DE PRODUCCIÓN DEL PET FELTRO / PROCÉDÉ DE PRODUCTION DE PET FELT

O FELTPET é obtido através da reutilização de garrafas de plástico, dando-lhes uma nova vida, e estendendo o seu ciclo de vida. Este processo é constituído por cinco etapas, seguidamente podemos verificar todas as etapas desde a garrafa até ao painel acústico.

FELTPET is obtained by reusing plastic bottles, giving them a new life and extending their life cycle. This process consists of five steps, then we can check all the steps from the bottle to the acoustic panel.

A Geometric Line é solução de painéis acústicos em PET Feltro apresentados sobre a forma de 5 figuras geométricas: Círculo, Triângulo, Quadrado, Retângulo e Hexágono. A Geometric Line tem soluções de parede onde é possível escolher o padrão a gravar no painel, ou de teto com a possibilidade de inclusão de um foco LED, esta linha possui várias dimensões adaptando-se a qualquer espaço.

Geometric Line is a solution of acoustic panels in PET Felt presented in the form of 5 geometric figures: Circle, Triangle, Square, Rectangle and Hexagon. Geometric Line has wall solutions where it is possible to choose the pattern to engrave on the panel, or ceiling solutions with the possibility of including an LED spotlight, this line has several dimensions adapting to any space.

BAFFLES

A linha Baffles é composta por dois defletores o Straight e o Arko, estes defletores para além das propriedades acústicas permitem também definir áreas em espaços abertos. Devido às suas lâminas e interseções das mesmas criam várias camadas de ar para melhor aumentar a capacidade de absorção do som reverberado. Deve ser colocado acima da fonte sonora, como ilhas de trabalho ou mesas de refeitório, a sua forma retém as ondas sonoras à medida que se propagam.

The Baffles line is composed of two deflectors the Straight and the Arko, these deflectors in addition to the acoustic properties also allow defining areas in open spaces. Due to their blades and their intersections, they create several layers of air to better increase the absorption capacity of reverberated sound. It must be placed above the sound source, such as work islands or cafeteria tables, its shape retains the sound waves as they propagate.

La línea Baffles está compuesta por dos deflectores el Straight y el Arko, estos deflectores además de las propiedades acústicas también permiten delimitar áreas en espacios abiertos. Debido a sus aspas y sus intersecciones, crean varias capas de aire para aumentar mejor la capacidad de absorción del sonido reverberado. Debe colocarse encima de la fuente de sonido, como islas de trabajo o mesas de cafetería, su forma retiene las ondas sonoras a medida que se propagan.

La ligne Baffles est composée de deux déflecteurs le Straight et l'Arko, ces déflecteurs en plus des propriétés acoustiques permettent également de définir des zones dans des espaces ouverts. De par leurs pales et leurs intersections, ils créent plusieurs couches d'air pour mieux augmenter la capacité d'absorption du son réverbéré. Il doit être placé au-dessus de la source sonore, comme les îlots de travail ou les tables de cafétéria, sa forme retient les ondes sonores lors de leur propagation.
